

Roadmaster's Monthly Report

February 2026

Roads Worked And Nature Of Work Done:

Cleaned and opened pipe inlets and outlets on S. Middle Rd. and Creek Rd. Put down approximately 35 loads of antiskid. Plowed town roads numerous times. Pushed back all town roads with Grader and wing plow. Plowed Drifts throughout the township many times. Cut and remove down trees on Stone chimney , Bradley , and East Warner hill rds. Thaw frozen pipes on Snyder, Crowley Hollow, and Stone Chimney rds. Issued 9 road cut permits to Expand Energy for temp water crossing lines and monitor for proper installation according to ordinance. Inspect Woodrun and Beacon Light rds for damages caused by water hauling traffic. Plow and sand Bald Mnt rd. for EMS accident call. Remove leaves from pipe inlets throughout the township. Recycle Antiskid pile several times and restack.

Repairs & Maintenance: tk1 back from Warrens for hard starting issue. Upfit Tk1 for winter use. Greased Trucks. Put chains and plow on Grader. Front tire repair on tk4 and 6 stone break. Replace front Grader tire with spare from cut in side wall. Replace bad air brake chamber on tk#4. Fab up different plow for Grader.

Future Work Plans: Plow and sand as needed. Fill potholes as weather conditions improve. Get equipment ready for spring and summer road maintenance.
